AMC MOY 2017 press release .docx

Here it is. Let me know if you'd like me to suggest further changes. Please remember that our manufacturing winners will not be announced or know they have won until the awards luncheon presentation. We look forward to seeing you tomorrow.

Thank you so much, Millan. Just wanted to give you an update that we made some edits as well as additions, such as our Manufacturer of the Year award winners (a surprise until the award is handed out tomorrow) and other honored guests, and will provide it to you as soon as the AMC/Chamber staff finishes their edits.

Dawn

"The Arizona Manufacturers Council welcomes Administrator Pruitt and the Trump Administration to our state to celebrate 2017 Manufacturing Day. Today, we applaud the Administration for steadfastly working to provide a more positive and less cumbersome regulatory climate for Arizona manufacturers, all the while continuing to protect our environment.

Earlier today, Administrator Pruitt met with Governor Ducey and relayed that he has approved Arizona's State Implementation Plan (SIP) revision for visibility for SRP's Coronado Generating Station and withdrew the previous Administration's associated Federal Implementation Plan (FIP). We applaud the Administration for taking this action to enhance visibility while simultaneously saving Arizona manufactures and other energy consumers millions of dollars.

This is just one example of the Administration's renewed dedication to state-federal partnerships, which will ultimately result in an improved environment and business economy for our our state's manufacturing base."
