Dear Mr. Miller,

Thank you very much for your letters of the 14th and 21st November, confirming that the Val Chisone publication "Practical Guide to the recognition of impurities in Talc" is no longer being distributed by you. Thank you also for sending a copy of the telex from Val Chisone, in which they also confirm that they have stopped distribution until the English version has been rewritten.

I must say that we appreciated very much the very prompt action you and Gianfranco have taken in this matter and greatly appreciate your cooperation.

I am sure that the new booklet will be most helpful and beneficial to both our companies.

Kind regards and best wishes,

Yours sincerely,

W. R. Dean
