Attachments: 16-06-10 DON FAQs for PFC-PFAS_KMHEdits.docx

Here are my updates, it's only a few grammatical things, but one is the use of POFS when I think you meant PFOS, but just wanted to be sure.

Looks good to me!

-Katie

John/Katie,

Would appreciate your review of the attached, especially with regards to the PFC chemical discussions. This is intended to be the DON standard responses to PFC questions, so it's in our best interest to make sure they're conveying the right information. We noted some differences in terminology based on past info from Jennifer Fields, but we're not sure if it makes a difference.

Apologize in advance for the short notice, but we'd appreciate any comments/input by noon tomorrow.

v/r,
Dan

Subject: FW: Recommended final set of PFC/PFAS FAQs

All,

Attached is the latest, and hopefully soon final, approved compilation of FAQs for your use when responding to future inquiries. Please take one final look at any Q&As where you are a SME in that area and provide any critical edits or suggestions (ASAP). You will notice, especially for the regulatory and health related responses, we reference and in most cases use verbatim responses from EPA and ATSDR. This should add to the credibility of our responses.

Karnig plans to review over the weekend, so if you have any critical edits or suggestions we will need them early next week. My goal is to have final version out by COB next Wednesday.

VR,
Richard

Karnig,

Attached is provided for your review, comment, edit, and/or concurrence. I will also share with our SME's for one final look. Once you approve, I will distribute the final widely and we will eventually include this on the public web site we are developing to share info transparently.

VR,
Richard
