Ms. King,

Dominion Energy Virginia requested information from Interior on the status of their project and if the Paperwork Reduction Act was triggered for a survey that would be conducted on NPS lands.

Since USACE is the lead agency and the project is conducted according to the MOA, I'd like to have a joint call to understand the process and next steps. Would you be available this Thursday? Thank you.

[Final MOA 04242017 with Potential ICs Identified 10162017.pdf](#)

Ms. King,

I look forward to our discussion regarding the PRA aspects of the MOA with Dominion Energy Virginia. Madonna has highlighted activities in the MOA that would trigger PRA. Let's use this as a starting base of our conservation this week, as well as determining the status and timeline of this project. If you have any questions in the meantime, please reach out to Madonna. Thank you.

Per our conversation on Friday, here's a more detailed list of potential information collections in the MOA. The attached version of the MOA has the updated highlights of the sections identified below, all of which would need to be more thoroughly reviewed by the USACE Clearance Officer for final determination of whether they need to be cleared under the PRA:
