New Haven, Connecticut

Dear Mr. Basil:

On October 3, 1972, a meeting was held with Messrs. Barth, Reuter, and Rimonte for the purpose of discussing a program for the asbestos exposure. Mr. Barth indicated that Cerro is willing to institute a program for determining the exposure, medically evaluating employees and continuing to monitor the asbestos exposure to employees. Also, it was agreed that Cerro is willing to accept the service which is to be provided by Liberty Mutual as an initial step in executing this program.

As soon as a date can be determined for Liberty Mutual's part of the program, you will be notified.

Sincerely,

Kenneth A. Grillo
