Dear Mr. Kimberley:

The first joint conventions of the National League for Nursing and the National Student Nurses' Association are now past, and we are in the process of evaluation. There seems to be agreement that the conventions successfully met their goal of involvement of the participants and developing strategies for needed change.

The exhibits especially have been singled out for praise. In this connection, we would like to express to you our deep appreciation for sharing with us copies of your exceptionally well-done booklet, Facts About Lead and Pediatrics. Having resource materials available on the issues under discussion surely had an impact on the deliberations.

Once again, please accept our thanks.

Sincerely,

Margaret W. Sparrow
