

MAY 10, 1974

DR. F. DIAZ

INDUSTRIAL RELATIONS

PREGNANT EMPLOYEES - CHEMICAL PLANT

If you haven't thoroughly explored the reference subject with Dr. Ballou you may wish to do so as it relates to females in the offices at the Chemical and Pilot Plant.

In respect to female production workers at the Chemical Plant, the writer discussed this with Dr. Ballou on May 8, 1974 and it was deemed we can legally bar them from being considered and this will be our policy.
