Subject: Shanghai Health Study Info

Rob,

Thank you very much for the conversation that we had on Thursday regarding the Shanghai study. Attached you will find the latest update:

Th note to Malcolm Brended:

L to API (American Petroleum Institute) website for the study. This is a consortium only site, so please do not distribute or share.

Subject: Shanghai Health Study - Q304 Update

Dear all:

Please find attached the 3rd quarter update on the Shanghai Health Study. As you know, Shell Chemicals is participating in a multi-stakeholder health study in Shanghai, China, which aims to better define the hazards and health risks from exposure to benzene. The project participants include a wide range of stakeholders including the Fudan University Medical Center, University of Colorado Health Sciences Center; Applied Health Sciences, Chinese public health agencies, Shanghai hospitals as well as several peer energy and chemical companies.

I hope you find this update of interest. Please do not hesitate to contact me should you have any questions.
