

1 Q Okay. What do they say about it?

2 A That is one of the risks for mesothelioma.

3 Q And why is that?

4 A Because of exposure to asbestos.

5 Q Okay. Doctor, have you reviewed any of the
6 deposition or trial testimony of any of Mr. Wood's
7 co-workers in this case?

8 A No.

9 Q Okay. Has Ms. Hines or anyone else provided
10 you descriptions of the evidence that has come into
11 the case?

12 A No.

13 Q So are you -- I am sorry.

14 A The only information that I have discussed
15 was based upon the records that were shown here.

16 Q Okay. So are you aware that the testimony
17 in this case has shown that Mr. Wood never actually
18 worked with brake and clutch products?

19 A I am not familiar. I don't know
20 specifically what he did in this job that he had from
21 1948 until 1972, whatever period of time it was.
