Dear Mr. Biegel:

An article in "Insulation Guide" (Vol. 1 No. 6) quoted your name as a source of information on the NIBS Asbestos Task Force. I am currently involved in a number of asbestos building evaluations and removal jobs and thus have a direct interest in any current developments in this area.

Unfortunately, I am not familiar with EPA's proposed rule-making to establish friability and "protective" action. I would appreciate a copy or citation of the Federal Register issue which contains this proposal.

Any information you can provide would be valuable.

My mailing address is:

Thank you for your assistance.

Sincerely,

Patricia Huggins
