Dear Mr. Patrick:

Enclosed is the complete list of tradenames which I could find filed under the Philip Carey Manufacturing Company. It includes all those which the company applied for, was issued and which may have been abandoned or expired.

I also searched under the words "asbestos" and "fibre" (and various spellings). "Asbestos fibre" was not listed in those trademarks applied for or issued.

In the material already xeroxed please note that trademarks for the Celotex Corp. were also included.

Please let me know if you have any questions about this information. If you need it, we can probably trade down an international trademark search consulting firm for you. I could not find Compu-mark listed in the phone directory.

I hope this research was useful to you.

Sincerely,

Alicia Culver
