New York, New York 10017

Dear Art:

I am sure you will have seen the attached by the time you receive this letter but I thought I would send another copy along out of an abundance of caution. As you will note, C&EN News has reported in quite a flamboyant way about the American Chemical Society testimony at the Occupational Safety and Health Administration hearings. You will also note that very little mention was made of the cross-examination or your protest on the record about not being invited to participate in the ACS activity leading up to its statement of position.

If, as we discussed, you do decide to write a letter to ACS and/or C&EN News and insist that it be published, we still think this would be a good idea. Should you proceed in this way, I would be very grateful if you could send me a copy of any communication you prepare.

With best personal regards,

Cordially yours,

Jerome H. Hechman
