

1 A Yes.

2 Q Okay. Now, at this job, how big a job was
3 this for the Hampshire Company?

4 A It was a huge job, big job.

5 Q Approximately how many plasterers would have
6 been on this job?

7 A Between 40 and 50.

8 Q Now, during this 12-month period of time in
9 '58, '59, were you there every day or how did that
10 work?

11 A No, that was a base job. They would send us
12 on smaller jobs and then, like two or three-day jobs,
13 and that would be our base job and that is when we
14 would go back.

15 All of the companies had a base job where
16 they send the plasterers.

17 Q Okay. Therefore, during this one-year
18 period of time, would there be occasions where you
19 would go out for a few days and do another small job
20 and come back?

21 A Yes.
