Dear Mr. vonBezard:

This is to confirm a teletype sent to you October 4th from Blaine McKusick, Central Research Department, Haskell Laboratory. We are very interested in obtaining a copy of the papers and abstracts presented at a conference held in late September in Bologna, Italy, entitled "Professional carcinogenesis: New possibilities in the light of the carcinogenesis of vinyl chloride". This conference was sponsored by the Italian Institute of Social Medicine and Bologna Hospital's Institute of Oncology. I have enclosed a copy of the article from Chemical Week describing this meeting and would greatly appreciate any help you could provide on this matter. Blaine McKusick sends his regards.

Very truly yours,

Susan W. Snyder
