PEABODY

COMBINED OIL and PULVERIZED COAL BURNER

Peabody Pulverized Fuel Burners produce the short, turbulent flame characteristic of complete combustion. Wide-range or straight-mechanical oil burners can be operated alone or simultaneously with the coal burner. Backed by thirty years experience, research and sound engineering design, Peabody Burners have set a standard of excellence for industry.

OIL BURNERS and ATOMIZERS

Available in various sizes and air register types, Peabody Oil Burners can meet any steam power plant requirement.

Peabody Oil Atomizers for these Burners are furnished with option of either steam or mechanical atomizing oil burners, including the famous Peabody Wide-Range, Constant-Differential System. Precision-built, Peabody Burners fire at equal capacity when controlled in multiple.

HEAT INSULATION PRODUCTS

BH

No. 1 INSULATING CEMENT

- Effective up to 1600° F.
- 100% Reclaimable up to 1200° F.

With Rust Inhibitor

Easy to Mix and Apply

Write for Catalog showing complete line of Insulation Materials

A plastic insulation with exceptionally high insulating values and strong adherences which makes a secure bond with hot or cold surfaces. It has high coverage and because of its low volume shrinkage, it will not pull away at the joints. An ideal maintenance insulation. Contains rust inhibitor which prevents corrosion taking place between insulated surface and cement.
