

29:18:10 anyway. My question related to whether or not the
29:22:20 FMSI and its members had a problem with the words
29:30:30 "danger" and "cancer" in the label, do you recall
29:31:40 that?

A They may have. I didn't.

Q I'm not, again, Mr. Drislane, I don't
29:35:70 want you to take this personal, and I am not being
29:39:80 critical of you. Let me show you what you said on
29:43:90 page 304 of that deposition you gave back in 1999.
29:48:00 Beginning at line 16. Question: "Isn't it true
29:51:10 that at this time OSHA had initially wanted the
29:54:20 words "danger" and "cancer" to be included in the
30:01:30 label, and industry including the FMSI did not
30:05:40 want those two, and this says "boards," but I
30:09:50 think it is "words in the label," and your answer
30:11:60 is, "That is my understanding." Do you recall
30:13:70 giving that testimony?

A If that's what they took down when I said
30:18:80 it, that's probably what I said. I blessed well
30:22:00 can't remember what I did that day.

Q Sir, this isn't a memory test. I am just
30:24:10 trying to establish what you recall happening and
30:28:20 what you don't. Now do you have an understanding
30:32:30 as to why industry didn't want the word "danger"
30:35:40
