Confirming our discussion, we now have two grades of Alkylate 230 with the following limits on homolog distribution:

Alkylate A-230 (General - all customers but Colgate)

Homolog Distribution (by VPC):

C ₁₁ and less	5 % maximum
C ₁₂	9.5% maximum
C ₁₃	40 % minimum
C ₁₃ + C ₁₄	65% - 95%
C ₁₅ and greater	5 % maximum

Alkylate A-230 C (Colgate grade)

Homolog Distribution (by Mass Spec.):

C ₁₁ and less	5% maximum
C ₁₂	10% - 30%
C ₁₃	30% minimum
C ₁₄	20% minimum
C ₁₅	5% maximum

Please use these limits on all shipments of Alkylate A-230 and A-230 C. The product code will be 0510-230 for both grades.
