I am writing to follow up on Bob Dawson's introduction, and to see if you and I can pick up our conversation about a possible frontier area.

(A "frontier area" would be a new form of land management, organized to replicate a segment of the nineteenth frontier, with a mix of undeveloped land and small towns that rely on traditional technology. Could be interesting and fun! Details at www.brightangel.org.)

I'll be back in DC at the start of next month, and free to meet with you any time from February 14 on. The length of the meeting is up to you, but I'd be grateful for 30 or 45 minutes if that works. The frontier proposal isn't impossibly complex, but it IS something truly new, and it has unexpected effects that take a while to sort through.

With thanks . . .

Neil
