Dr. A. J. Verwald
Trudeau Foundation
Saranac Lake, New York

Dear Dr. Verwald:

On September 24, 1952 during my attendance of the Seventh Saranac Lake Symposium, I delivered to you for study at the Saranac Laboratory the x-ray films of twelve asbestos textile workers employed at our Cicero, Illinois plant. The files contained serial x-ray pictures and the employee work history which gave the length of exposure, type of exposure, etc.

To date these files have not been returned. Realizing how busy you are and how full the Saranac Laboratory Program must be, I have been reluctant to bring this matter to your attention. The files submitted to you were taken from our active records and their continued absence is beginning to cause our Medical Department considerable inconvenience.

Will you please advise how soon I may expect the return of these x-ray records? If available, I would also appreciate a report on the result of your studies of our x-ray films.

Very truly yours,

UNION: ASBESTOS & RUBBER CO.
