Itabashi-Ku
Tokyo, Japan

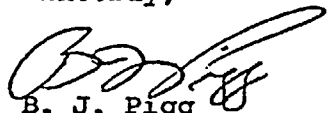

Dear Mr. Shirasaki:

We have your letter of September 11 which makes inquiry about the number of possible users of a portable bandsaw to cut asbestos sheets and pipes in the United States.

This Association does not have the detailed specific information that you seek. However, our best estimate is that there are currently about six a/c pipe plants and about five major manufacturers of a/c sheet in the United States.

We hope the above information is responsive to your needs.

Sincerely,

B. J. Pigg
Executive Director
