With the advent of the new federal lead law which will prohibit the use of paint products with more than 1% lead whether on interior or exterior wall, it would mean we would not be able to sell the following Y-line products.

Y-5794 - Tiber Green
5795 - Red
5796 - Yellow
5797 - Orange

They contain well over 1% lead and would have to be reformulated or dropped from the line. There was no production on these items last year, but they do not appear on the discontinued list for this year. Any decision to be made on the formulas?
