DOCUMENT DESCRIPTION: Memo RE I-Ray Film Reports

OC 5/9

Mr. Carl Dye recall - Berlin plt
cc: Mr. O. W. Pfeiffer - Berlin plt
Mr. R. R. Beck - 19
Dr. H. C. Schwartz - Berlin plt
Dr. Seward Miller - Ann Arbor

October 25, 1957

Dear Carl:

We have just received our copies of the X-ray film reports from University of Michigan covering a group of your people.

We still have not worked out an adequate system for handling the films. It is highly possible that the hospital in Camden is to blame for we note a strange address on our copies of these reports. On no part of the report is Berlin mentioned, therefore, we are wondering if you received the original report from Ann Arbor. The address they show is 1600 Haddon, Camden, New Jersey.

Secondly, we note that only the latest X-ray films were forwarded on cases having known chest pathology. It is recommended that a foolproof system be devised at your plant to assure proper administrative and professional handling. In all cases where pulmonary or cardiac pathology exists not only this year's film, but last year's and the first on showing a change from normal should be sent. In this way, you get a comparative study at no additional cost and will find it of extreme value to all concerned.

Regards.

Sincerely yours,
