Subject: CBS EVENING NEWS ON TIGHT DEADLINE

Hi all -

I am reaching out from the CBS Evening News in New York and I am trying to confirm some facts for a story about the new mileage standards airing on tonight's broadcast.

Does the plan unveiled today reduce the average from 54 to 37 miles per gallon? And does today's plan include revoking the authority of states to set their own standards for mileage?

Thank you for your help. This is for tonight's show - we go to air at 6:30 p.m.

Bryce Newberry
