AROCLOR® [redacted]

[redacted]
Principally Pentachloro Biphenyl

CAUTION!
CONTAINS CHLORINATED HYDROCARBONS

Avoid prolonged breathing of vapors or mists.

Avoid contact with eyes or prolonged contact with skin.

If skin contact occurs, remove by washing with soap and water. Following eye contact flush with water.

If clothing becomes soaked with fluid, launder before wearing again.

WARNING:

Recent data suggests that Pentachloro Biphenyl may be highly toxic, particularly in the presence of other chlorinated hydrocarbon residues, even in very small concentrations (parts per million and in some cases parts per billion) to various forms of aquatic life and to some species of birds that feed on such life. Since Pentachloro Biphenyl does not degrade, do not discharge or otherwise permit emission or disposal into the environment.
