unaware that the plasters that he used contained asbestos.

His exposure may have been overlooked by statisticians.

MR. IGNATOWSKI: Your Honor, may I approach for just one second, please?

THE COURT: Please.

BY MR. IGNATOWSKI:

Q In fact, Doctor, what did Mr. Vandergucht tell the doctors when he was asked about the products he worked with, what they contained, in that same record that Mr. McGowan showed you?

A He said they contained Portland Cement, gypsum and lime.

Q Thank you. That is a case where he didn't know that those products contained asbestos?

A Apparently in 1980 he was unaware that those products contained asbestos. In fact, he may have, by a statistician, fallen into that 20 percent.

He may have been called a nonasbestos related mesothelioma when, in fact, he was an
