Mr. Bill Stewart, P. E.
Executive Director
Texas Air Control Board
6330 Highway 290 East
Austin, Texas 78723

Dear Mr. Stewart:

The Celanese Chemical Company, Inc., plant at Bishop, plans to reclaim about 1,200 feet of steel pipe ranging in size from 1" to 18" in diameter. Also included in this reclamation work is a small vessel, approximately 6' long by 8' diameter. This reclamation work will start January 31, 1983. The pipe and vessel are insulated with friable asbestos insulation, so insulation will be removed as the first step, and landfill in the designated asbestos landfill located on the plant site. All precautions, outlined in 40 CFR 61.20-61.25, will be observed.

This letter will serve as notification of this work, as required by 40 CFR 61.22 (d) (2). The attached data sheet lists all the pertinent data.

Please contact me if you have any questions or comments.

Very truly yours,

John J. Fritsch, Jr.
