

LEAD INDUSTRIES ASSOCIATION, INC.

292 MADISON AVENUE

NEW YORK 17, N. Y.

July 24, 1962

SUBJECT: HEALTH & SAFETY COMMITTEE

To Members of the Lead Industries Association, Inc.:

With the approval of the Board of Directors, Lead Industries Association, Inc. is in the process of establishing a Health and Safety Committee. The purpose of this committee is to advise the Board, the Industry Development Committee, Technical Steering Committee, other committees, and the Health and Safety Director on matters relating to industrial and public health, air pollution and similar matters. The Health and Safety Director will serve as secretary to this committee.

It is intended that the membership of the committee be made up of medical men or industrial hygienists connected with companies engaged in the lead industry. We would appreciate it if you would let us know whether you have anyone in your organization with the proper qualifications to serve on this committee. While we are anxious to keep the committee as small as possible, we do not wish to overlook anyone who can contribute significantly to its work.

Very truly yours,

Executive Vice President
