Fittings and duct work illustrated are selected to indicate range of design and construction of the Lamneck line of air distribution pipe and fittings for heating and cooling. This line is designed with full-throated elbows and angles for full efficiency to simplify later air cooling demands. Line includes complete range of perimeter heating fittings. *New catalog 5447 available.*

No. 700-P standard L-shaped corner-seam duct. Manufactured in 8 in. depth, 16 in. and 32 in. length, in widths from 4 in. to 44 in. Also available as No. 700-T, standard U-shaped center-seam duct. Duct sections furnished complete with No. 737-T Snap-lock connector.

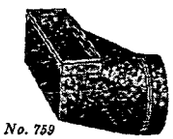

No. 700 P

No. 792

No. 792 adjustable round pipe side takeoff fitting. Available in 4 in., 5 in., 6 in., 7 in. and 8 in. sizes.

No. 759

No. 759 90 degree register boot for perimeter heating designs. Available for register sizes from 2¼ in. x 14 in. to 6 in. x 14 in.

No. 764 cap reducer. Furnished in sizes 8 in. – 6 in. to 14 in. – 10 in.

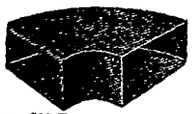

No. 764

No. 720-T horizontal 90 degree elbow with 5 in. throat radius. Available in sizes from 4 in. x 8 in. through 44 in. x 8 in.

No. 773

No. 720 T

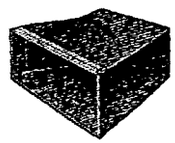

No. 773 water heater flue connector. New design fitting for adapting water heater flue to furnace flue. 3 in. water heater flue in increaser from 4 in. – 5 in. to 8 in. – 9 in. sizes.

No. 762

No. 762 taper reducer 9 in. long, available in sizes from 7 in. – 6 in. to 12 in. – 10 in.

No. 729-T straight sided increaser or reducer, furnished in 16 in. lengths. Also furnished with two side reducer sections for center reduction. Available from 4 in. x 8 in through 44 in. x 8 in.

No. 729 T

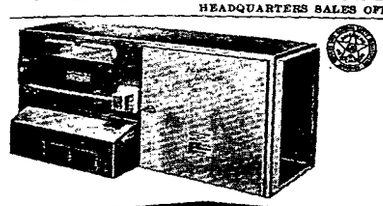

Norman Products Company

1150 Chesapeake Avenue,

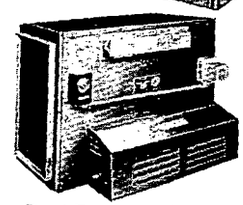

Columbus 12, Ohio

Manufacturers of a complete line of gas heating and air conditioning equipment. For information contact factory representative at Columbus headquarters sales office.

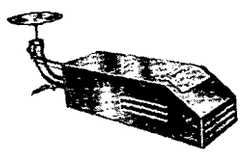

Norman Southerner—Horizontal forced air gas furnace for compact home installation. Factory assembled and tested. Right or left-hand unit. Newly designed heat exchanger provides more efficient heat transfer and uniform heat distribution. Four sizes: 65-85-100-140 thousand Btu input.

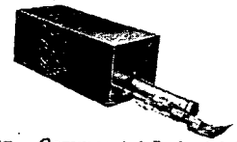

Norman Duct Furnace—for Commercial and Industrial Heating—in combination with air conditioning. Installed in ducts of warm air and air conditioning system where air is circulated by remote blower. Four sizes: 65-85-100-140 thousand Btu input.

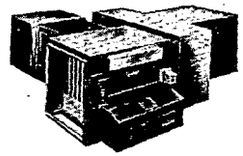

Norman '360'—Gas fired overhead forced convection heater. "Circular" heat distribution eliminates hot blasts and cold corners. Streamlined design blends with modern interiors. Ideal for remodeling. *UL* listed. 100,000 Btu input.

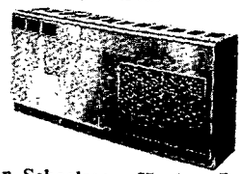

Norman Gas Conversion Burner—exclusive Norman single-port, self piloting, flame-retention type burner. Inshot or upshot models; fits any size or shape furnace or boiler. Easily installed. 3 sizes with input ratings from 50,000 to 300,000 Btu.

Norman Commercial-Industrial Gas Conversion Burner—for converting apartment, commercial and industrial heating plants. Burner completely assembled. 4 sizes with ratings from 300,000 to 2,000,000 Btu.

Norman Winter-Summer Air Conditioner—Horizontal year round air conditioner combining Norman Duct Furnace with independent cooling and blower assembly in one package. Damper compartment operated by single thermostatic control. Cooling only available in Separate Package for Installation With Existing Furnace. Cooling available in 2 or 3 ton unit with heating supplied in capacity of 85-100-140 Btu input.

Norman Schoolroom Heater—Low-cost self-contained central heating and ventilating system. Preheated outside air mixes with room air; flow can be automatically adjusted with damper. Eliminates piping and expensive outside ventilation system. Easy to install . . . saves space. 65,000-85,000 Btu input.
