MWEA INDUSTRIAL GOLD AND SILVER PRETREATMENT AWARDS

NOMINATION FORM

Industry Name: Monsanto Company, J.F. Queeny Plant

Address: 1700 S. Second Street,
St. Louis, MO 63104

Telephone: (314) 622-1641

Award Class (Gold or Silver): Silver

Industry Contact: Mr. Robert Cheever

Average Daily Flow (Regulated): 200,000 GPD

Type of Pretreatment: Granulated activated carbon absorption and neutralization

POTW: Metropolitan St. Louis Sewer District - Bissell Point STP

Comments: Monsanto has consistently maintained open communication with MSD. They attempt to keep us informed of planned changes in processes well in advance. They respond promptly and thoroughly to requests for information. They also are located in an older facility and have invested much capital in improving access to and streamlining the locations of their sewer discharge points. Monsanto's committment to pollution reduction and prevention is well known, and extends to the J.F. Queeny Plant as well.

Nominating Pretreatment Coordinator Name: Douglas M. Mendoza

Signature: Douglas M. Mendoza
