

WORKMEN'S COMPENSATION
THE INDUSTRIAL COMMISSION OF OHIO
MEDICAL SECTION
COLUMBUS

IN RE CLAIM NO. O.D. 30323 - [REDACTED], Dec'd.

August 10th, 1943.

Dr. R. A. Kehoe,
University of Cincinnati,
College of Medicine,
Cincinnati, Ohio.

Dear Doctor: -

Review of this file indicates that you were consulted in this case, and your report is part of the file. At that time, you considered hypertensive encephalopathy and lead encephalopathy in your differential diagnosis.

Since your report, our investigator has contacted the attending physician in this case prior to decedent's hospitalization at General Hospital, and we note that he had been treating this deceased for hypertension prior to the onset of his last illness. The attending physician reported his blood pressure as 230/110.

We are, therefore, referring this file to you and are requesting that you review all of the evidence which is now available.

Very truly yours,

R. M. Andre, M. D.,
Supervisor, Medical Section.

BA/MMW.

P.S. The file is being sent to you under separate cover.
