Subject: Copper mining

As a local Chef here in Seattle, I beg that you not allow these mining practices to happen in one of the beautiful parts of the world. We owe it to mother nature to protect all the beauty she has created. You have to know that these ponds to hold the waste will not hold, look at what happens to all those that lived in flint Michigan. I want to help preserve this world for the future generations, and we need you help to ensure our future has access to enjoy wild fish.

Thank you,
Seth Fernald
