

TABLE OF CONTENTS (Continued)

	<u>Page</u>
3.5.4 SAE Recommended Practices for Evaluating Brake Systems and Friction Materials	48
4. PERFORMANCE ATTRIBUTES OF FRICTION MATERIALS NOW IN USE	51
4.1 Section Summary	51
4.2 Introduction to Friction Material Formulations	52
4.3 Asbestos-Based Friction Materials	53
4.4 Non-Asbestos Friction Materials	55
4.4.1 Semimetallic Friction Materials	56
4.4.2 Non-Asbestos Organic Friction Materials	57
4.4.3 Sintered Metallic Friction Materials	58
4.4.4 Carbon-Carbon Friction Materials	59
4.5 Aftermarket Vehicle Considerations	59
4.5.1 Drum Brakes	59
4.5.2 Disc Brakes	60
4.5.3 Factors Affecting Substitution of Friction Materials	60
4.6 Direct Comparison of OEM and Aftermarket Brake Linings	65
4.6.1 Dynamometer Test Data	65
4.6.2 Vehicle Test Data	68
4.7 Issues of Consumer Acceptability of Non-Asbestos Materials	70
5. REVIEW OF VEHICLES AFFECTED BY PROPOSED BAN	72
5.1 Section Summary	72
5.2 Brake System Trends in Passenger Cars, Trucks, and Equipment	73
