FROM: Roman P. Korobij *RPK*

SUBJECT: A/C PIPE AND HEALTH BINDER AND BULLETINS

I have taken the liberty to combine the materials presented to you at the AWWA Conference in Houston, in addition to copies of other important correspondence, into the attached A/C Pipe and Health Binder.

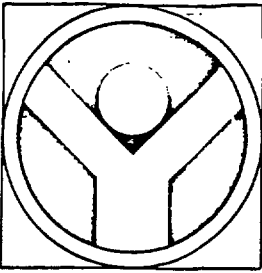

This binder contains the most recent information which can be used to approach and educate your customers and/or distributors on the A/C pipe and health issue. I will be sending information periodically in the form of A/C Pipe and Health Bulletins to keep this binder up-to-date.

Additional copies of this binder and the contents therein are available for your field sales people upon request.

If you have any comments, suggestions, or information you may wish to include, please let me know.
