VIR AIR MAIL

Mr. Jack T. Garrett
Monsanto Company
800 N. Lindbergh Boulevard
St. Louis, Missouri 63166

Dear Mr. Garrett:

We greatly appreciate your offer to handle for Monsanto the letter of November 10, 1972 addressed to Mr. E. P. Wheeler regarding the vinyl chloride research project (copy enclosed).

Mr. Best is most anxious to get all the confidentiality forms in at the earliest possible time. A cable from Mr. D. M. Elliott of Imperial Chemical Industries Limited advises the Europeans are trying to arrange a meeting the first week in December and it is vital ICI have our confidentiality agreements before then; ICI's position relative to other members of European Group would be eased by having them in hand. We plan to forward to him all we receive by Friday.

After reviewing the enclosed, would you please call us and advise how soon you can have form completed and returned. Mr. Best is on vacation until next Monday, but in the meantime I am handling this matter for him.

Thank you for your prompt attention.

Sincerely,

A handwritten signature in cursive script, appearing to read "(Mrs) Marion Woodruff".

Animal Testing Research - Vinyl Chloride Monomer

With regard to any information disclosed to personnel of our company concerning the European research on vinyl chloride monomer referred to in R. I. Lindsell's letter of August 16, 1972, addressed to the Manufacturing Chemists Association, we pledge to hold such information strictly in confidence within our company unless and until formally notified specific consent to its release has been granted by the European sponsors.
