

1 in the mining towns kids would go out and play in the
2 so-called tailings, the piles of ore and rock and
3 stuff that were left over after they manufactured it,
4 and those kids also got mesotheliomas.

5 But if you want to use the word commercial,
6 I am happy to stick with it.

7 Q This talks about the fact that there is one
8 to two cases per million of mesothelioma that aren't
9 due to commercial asbestos exposure?

10 A That is right.

11 Q And that would be between 200 and 400 cases
12 a year, in that category in the United States?

13 A Yes.

14 Q And how many cases are -- do you know how
15 many cases there are of mesothelioma reported every
16 year in this country?

17 A No, but I suspect you do.

18 Q I think it has already been talked about by
19 another expert.

20 Doctor, do they include in their book a
21 section where they discuss the types of occupations
