

Installation of
B & G Gas Cooler

Hydro-Flo HEAT EXCHANGERS

invite your critical appraisal of
design and workmanship

Whether you require equipment of standard design or specially engineered units, B & G Hydro-Flo Heat Exchangers will stand up under any measurement of value you can apply. They are the sum of both practical field experience and continuous laboratory research and development.

The sound design of B & G Hydro-Flo Heat Exchangers is translated by modern manufacturing methods into units of proved efficiency... built to do the job well over a long operating life. The line is comprehensive—covering the numerous applications of heat exchangers in modern industrial plants.

The B & G engineering staff is always available for consultation on your heat transfer problems.

YOUR ANSWER TO FLEXIBLE TUBING PROBLEMS

PENFLEX "FLEXINEERING"

THE CORRECT TUBING... PLUS TECHNICAL AID ON EVERY JOB

is the know-how of the Penflex Engineer plus the can-do of Penflex Flexible Metallic Tubing serving you from design board right up to job installation and maintenance. It is the scientific application of the right type of steel, bronze, or aluminum flexible tubing to your air, oil, water, gas, steam, volatiles, or light solids conduction requirements. It is the specific recommendation of the right size and weight flexible tubing—four-wall interlocked or seamless welded corrugated type—in sizes from 1/8" to 24" I.D. And it is the nation-wide supply of Penflex in any quantity where you want it, when you want it.
