U. S. PUBLIC HEALTH SERVICE
NATIONAL INSTITUTE OF HEALTH
BETHESDA, MARYLAND

November 4, 1942

Dr. Robert A. Kehoe
Kettering Laboratory of Applied Physiology
University of Cincinnati College of Medicine
Cincinnati, Ohio

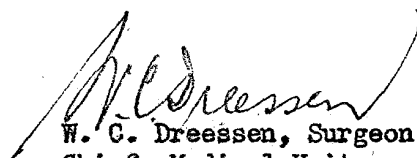

Dear Dr. Kehoe:

I, too, am pleased to hear that the papers on lead poisoning will be published complete in the Journal of Industrial Hygiene and Toxicology, as stated in your letter of October 30. It will be satisfactory with me for you to review the galley proof.

I believe that 500 reprints will be the number desired, though I may wish to change the request, depending on the price. In view of the fact that they will be purchased with National Institute of Health funds, I would appreciate your advising me as soon as the galley is received of the number of pages of the reprint and the price.

By direction, Chief of Division.

Sincerely yours,

W. C. Dreessen, Surgeon
Chief, Medical Unit
