NOTICE—It is to be noted that this price list carries a code indicating the type drum in which each of the products is normally filled. This code appears at the top of the drum price column in each instance and indicates the following:

OH —Open Head 55 gallon drum
OHA—Open Head Agitator 55 gallon drum
TH —Tight Head 55 gallon drum with openings
THA—Tight Head Agitator 55 gallon drum with opening

It is important that orders for drums of products bear these codes. In the event that, due to conditions or requests of a customer, another type drum is required on a given order, notation to that effect must be specified on the face of the order.

NOTICE—It is to be noted that this price list carries a code indicating the type drum in which each of the products is normally filled. This code appears at the top of the drum price column in each instance and indicates the following:

OH —Open Head 55 gallon drum
OHA—Open Head Agitator 55 gallon drum
TH —Tight Head 55 gallon drum with openings
THA—Tight Head Agitator 55 gallon drum with opening

It is important that orders for drums of products bear these codes. In the event that, due to conditions or requests of a customer, another type drum is required on a given order, notation to that effect must be specified on the face of the order.
