NO. 55 STA-KOOL
ALUMINUM FIBRATED COATING

This product is a outback reflective coating of light consistency and is reinforced with asbestos fibers to provide a surface with greater tensile strength than non-fibrated coating. The product is particularly designed for use where a one coat light reflective surface is desired.

Material cures to a non-cracking installable finish which protects roofs or walls from direct contact with the sun, wind, or rain.

CAUTION

Flammable mixture—do not use near fire or flame.

Danger — Harmful or fatal if swallowed. Contains petroleum distillates.

Avoid frequent or prolonged contact with skin. Use only in well-ventilated area.

If swallowed, do not induce vomiting. Call physician immediately. Keep out of the reach of children.
