Dear Administrator Pruitt;

Thank you so much for being with us at the Texas Public Policy Foundation's *At the Crossroads IV: Energy and Climate Policy Summit!* We so appreciated your inspiring remarks and were thankful to have you there to discuss the scientific truths behind global warming and using real energy sources to grow the U.S. and world economy. Federal climate change regulation intent on supplanting fossil fuels at all costs inhibits prosperity and liberty at home – and more than that, it amounts to a “war on people” worldwide. Your poignant remarks helped ensure that we fight this “war” properly and continue to educate both the public and media.

The Texas Public Policy Foundation is leading the way to advance common-sense energy policies. We look forward to collaborating with you to spread the important message of prosperity through our nation's energy resources. As the fight continues, you can count on TPPF to create and support dynamic energy policies that will advance the United States forward.

Your appearance at the Crossroads Summit was much valued by our guests, our staff, and myself. It was an honor to moderate the conversation with you! Thank you for giving your time and talent to speak at this important event.

Best regards,

Brooke Rollins
