My dear Dr. Kelwe —

I would like very much to
have a re-visit of your article on
the treatment of lead poisoning which
appeared in the 1930 Journal of
Medicine — which periodical we
seem not to have in our library.
Also, if there have been any ~~abstracts~~
published statements of your group
concerning do. leading treatment,

KE 0020033

in the past couple of years I should
be very grateful for print.
Thanking you in nce
Sincerely

A. Bryner
