Subject: MARK 1900

Dear Mrs. Dillon:

Yesterday, when you called, we discussed the FDA status of MARK 1900. This is an Argus stabilizer which you are using (or will use) in a PVC compound for which you are seeking NSF approval.

Although you found the ingredients of MARK 1900 to be in the FDA section (Title 21 CFR), MARK 1900 is not the FDA grade product. I obtained from Mr. Len Pollner a copy of a letter, written by Dr. Larry Brecker to Mr. C.V. Purks, which explains it.

I am sending you a copy of this letter. Please let us know if you need any further information.

Sincerely yours,

Bern Bluestein
