Suggested language concerning tank car design:

Suitable Introductory Comments -

"Our organization supports the position that all pressure tank cars constructed from this date forward will accept a commercially available capping kit. More specifically, all VCM cars constructed will accept a capping kit currently available or such kit will be designed and made available concurrently with the rail cars".

DR. HAS SHAH

(DRAFT)

THE VINYL CHLORIDE NETWORK

WOULD LIKE TO MAKE A
RECOMMENDATION TO THE
INTERINDUSTRY RAIL GROUP
THAT ALL FUTURE PRESSURE
TANK CARS BE DESIGNED
IN SUCH A MANNER THAT
THEY WOULD BE CAPABLE
OF ACCEPTING A COMMERCIALY
AVAILABLE CAPPING KIT.
