On 1-24-71 a Specter truck left WOK with a LTL shipment for Kulman Electric in Crystal Springs, Mississippi. When the truck arrived in Greenville five drums were punctured. About 2 inches of material was on the floor of the truck. The partial delivery was made to Kulman. The truck was cleaned in Greenville with adsorbent. The adsorbent was dumped in a city dump in Greenville. Three men cleaning the truck were sick (nausea) from the job but were reported o.k. now. The trailer was reloaded with carbon black and shipped to Passaic, N.J. Tracked the truck to Passaic, N.J. where the truck was again loaded with freight. The freight terminal foreman reported there was nothing particularly abnormal about the truck - no odor or oily spots on the floor. Consulted with W. B. Papageorge about the possibility of decontaminating the truck. Decided against it. Truck was destined for Columbus, Ohio.

For future reference the contacts were:

Kulman Electric - Crystal Springs, Miss.  
Jimmy Walters - (601) 362-2467

Spector Freight Lines - Greenville, Miss.  
M. L. Robertson - (601) 892-4661
