Engineered Products for Residential, Commercial and Institutional Air Conditioning, Heating, Ventilating

NEW BRITAIN, CONNECTICUT

HIGH PRESSURE AIR DISTRIBUTION UNITS

Type MPW

A complete line of equipment designed to meet the growing demand for high pressure installations in multi-story office buildings, schools, hospitals, hotels and institutions.

TYPE MPW

Medium Pressure Periphery Wall Mixing Plenum Unit for individual room control on heating or cooling cycle, or zone control. Handles static pressure in system up to 3.5 in. w.g.

TYPE MP

Medium Pressure Sub-Central Station Unit for distribution of air to one or more diffusers by means of rigid or flexible ductwork. Handles static pressure in system up to 3.5 in. w.g.

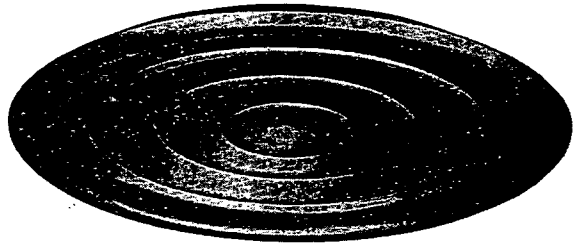

TYPE MPD

Medium Pressure Ceiling Diffuser Double Duct Mixing Plenum Unit for individual unit or zone control. Single duct units also available. Handles static pressure in system up to 3.5 in. w.g.

TYPE PRV

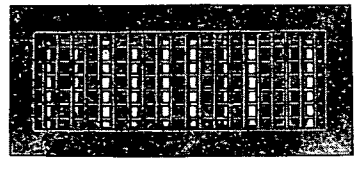

Pressure Reducing Valve for use in medium pressure systems, temperature mixing units and sound attenuation boxes. Manual or automatic operation.

Aerofuse CEILING DIFFUSERS

A wide selection of diffuser types and sizes, styled and engineered to meet the most rigid requirements of appearance and performance at the point of air delivery.

TRI-FLEX SUPPLY AIR GRILLES AND REGISTERS

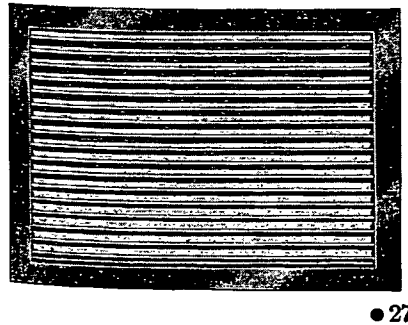

Available as single and double deflection grilles; single and double deflection registers with opposed blade dampers. Blades are regulated by means of a key operator and may be set in any position from fully open to fully closed. Face bars are individually adjustable. Stocked in 26 standard sizes.
