EMERGENCY CALLS ON PARTY LINES — WARNING — Washington state law (RCW 70.85.) makes it a punishable misdemeanor wilfully to refuse to yield the use of a telephone party line to another person to enable such other person to report a fire or summon police, medical or other aid in case of emergency. The law also makes it a punishable misdemeanor to request the use of a party line on the pretext that an emergency exists, when the person requesting such use knows that no emergency exists. An "emergency" is defined as "a situation in which property or human life is in jeopardy and the prompt summoning of aid is essential."

EMERGENCY CALLS ON PARTY LINE—WARNING—

Washington state law (RCW 70.05) makes it a punishable misdemeanor willfully to refuse to yield the use of a telephone party line to another person to enable such other person to report a fire, summon police, medical or other aid in case of emergency. The law also makes it a punishable misdemeanor to require the use of a party line on the pretext that an emergency exists, when the person requesting such use knows that no emergency exists. An "emergency" is defined as a "situation in which property or human life is in jeopardy and the summoning of aid is essential."

EMERGENCY CALLS ON PARTY LINES —WARNING—

Washington state law (RCW 70.85.) makes it a punishable misdemeanor wilfully to refuse to yield the use of a telephone party line to another person to enable such other person to report a fire or summon police, medical or other aid in case of emergency. The law also makes it a punishable misdemeanor to request the use of a party line on the pretext that an emergency exists, when the person requesting such use knows that no emergency exists. An "emergency" is defined as a "situation in which property or human life is in jeopardy and the prompt summoning of aid is essential."

EMERGENCY CALLS ON PARTY LINES —WARNING—

Washington state law (RCW 70 85) makes it a punishable misdemeanor wilfully to refuse to yield the use of a telephone party line to another person to enable such other person to report a fire or summon police, medical or other aid in case of emergency. The law also makes it a punishable misdemeanor to request the use of a party line on the pretext that an emergency exists, when the person requesting such use knows that no emergency exists. An "emergency" is defined as a "situation in which property or human life is in jeopardy and the prompt summoning of aid is essential."

Ever ask yourself why the phone company chose yellow for its classified business listings now called Yellow Pages? Until the year 1883, the business section was printed on white paper. But a printer in Cheyenne, Wyoming, ran out of white stock one day and substituted yellow paper. And that's how the Yellow Pages were born.
