312 COLTON BUILDING

TOLEDO, OHIO

September 12, 1934

L. 150

Ethyl Corporation
56 Broadway
New York City, N. Y.

Gentlemen:

Sinclair Refining Company, with whom I had correspondence about the way lead affects the human body, have informed me that you have some simple tests to diagnose lead poisoning, and they also state that they believe that you would be glad to give me information on these tests to aid me in diagnosing cases of lead poisoning.

I would appreciate this information.

Respectfully,

Henry L. Price
