Dr. William H. Hunt
Toxicologist, Medical Department
Monsanto Company
800 N. Lindbergh Blvd.
St. Louis, Mo. 63166

Dear Bill:

Thank you very much for your letter of August 22nd and the indication that you will send us samples of Arochlor 1254 and 1221. After a reasonable length of time if the samples don't arrive, I will call you and if they do arrive, I will also let you know.

We will, of course, send you the results of the studies. I have a postdoctoral doing this problem and she will go to the University of Louisville in December so we plan to have the project finished by then.

Sincerely,

KPD:cg

Kenneth P. DuBois, Director
