College of Medicine,
Eden and Bethesda Avenue,
Cincinnati, Ohio.

Dear Dr. Kehoe:

I am attaching hereto an original letter from Dr. Geo. J. Seibold of the Balyeat Hay Fever and Asthma Clinic, Oklahoma City, Oklahoma, together with a copy of my acknowledgment and I assume that you will wish to handle this matter yourself.

Yours very truly,

TER:RA

Dr. Robert A. Kehoe,
Kettering Laboratory,
University of Cincinnati,
Eden and Bethesda Avenue,
Cincinnati, Ohio.

Dear Dr. Kehoe:

I received your very excellent reprints concerning tetraethyl Ethyl lead and gasoline dermatitis and wish to thank you very kindly for the same. If I make any startling discovery of contact agent in the patient I have reference to, or if I find anything that might be of additional information to us both I will be only too happy to write you about the same in the near future.

May I take this opportunity to wish you a very Happy New Year.

Fraternally yours,

Geo. J. Seibold, M. D.
