and physical properties -- and it has some chemical compositions there -- percentage is 85. Asbestos is 15 percent.

If you look in the middle of the page.

Note any special precautions for conditions of storage and transportation, and it has labels on carton states, "This product contains asbestos. If dust is created when the product is handled, avoid breathing the dust. If adequate ventilation control is not possible, wear respirators approved by the U.S. Bureau of Mines."

It is signed by Per T. Saverstrom, and the date of that is August 18th, 1970.

The next page.

U.S. Department of Labor, material safety data. Manufacturer's name, Owens-Corning Fiberglas, and it gives the address.

Section 2. Hazardous ingredients, and you will see halfway down it will say hazardous mixtures of other liquids, solids or gases. It has asbestos fibers, in parentheses, amosite and chrysotile.
